

# Violet Elementary Behavior Team~

Positive Behavior Support allows the opportunity to provide a consistent and fair behavior plan. The original theories behind this approach to discipline were developed by special education instructors. However, this type of plan is beneficial to ALL students.

Research shows that students achieve at a higher level when they know the expectations and feel safe. Positive Behavior Support will help us improve both of these areas. Our plan provides detailed expectations in every area of the school while putting an extreme emphasis on safety.

The success of our plan will improve with time and with the collaboration of our families. Research also shows that school behavior plans that are followed in the home greatly improve their effectiveness in the school.
